SUMMARY

A creative and detail-oriented UI/UX Designer and Information and Communication Technology with a specialization in the field of Software Engineering, skilled in wireframing, prototyping, user research, and visual design. Proficient in Figma and front-end technologies like HTML, CSS, and JavaScript, with a strong focus on creating seamless, user-friendly, and responsive interfaces. Passionate about designing accessible, visually appealing, and intuitive digital experiences while staying current with the latest UI/UX trends, design systems, and usability principles.

WORK EXPERIENCE

UI/UX Designer (Intern) – Infact Solutions (PVT) Ltd

April 2024 - October 2024

- Designed responsive user interfaces for client projects using Figma.
 - Conducted user research and usability testing to improve design decisions.
 - Collaborated with developers to ensure design feasibility and consistency.
-

KEY PROJECTS

Book Bridge - Book Exchange Design

April 2024 - September 2024

- Created prototypes in Figma to design user-friendly interfaces.
- Built responsive layouts and reusable design components for web.
- Improved usability by applying user research and testing feedback.
- Collaborated with developers using Figma libraries for smooth handoff.

PredictGuard – Inventory Dashboard

August 2025

- Created an interactive dashboard in Figma in order to see sales forecasts and anomaly detection.
- Targeting user-friendly designs to small and medium sized retailer with less data literacy.
- Developed data visualization elements (charts, table) in order to make inventory/sales-related decisions.
- Ensured that the dashboard adhered to clean, accessible and responsive UI guidelines.

PassKeeper – Secure Online Vault & Browser Extension (Research) October 2024 - August 2025

- Designed a password management program and underpinning encryption and face recognition so as to authenticate user details.
- Designed and delivered simplified, user friendly websites with significant emphasis on the principles of security and usability.
- Designed blockchain-based storage based on smart contracts to make data management transparent and tamper-proof.
- Full text Using MetaMask as a Web3 single authority log-in.
- Designed a browser extension ecosystem to streamline the storage, retrieval and autofill of passwords within a browser.

EDUCATION

Bachelor of Information and Communication Technology (Hons)

2021 – 2025

Uva Wellassa University of Sri Lanka

- Specialization in Software Engineering
 - Thesis on "PassKeeper – Secure Online Vault & Browser Extension".
-

SKILLS

- **Technical Skills:** Figma, Canva, Capcut, HTML, CSS, JavaScript
 - **UI/UX Design Skills:** Wireframing & Prototyping, User Research & Usability Testing, User Flows, Storyboards, Interaction Design & Visual Design Principles, Responsive & Accessible Design, Understanding of Android/iOS Design Guidelines
 - **Soft Skills:** Communication, Teamwork, Problem-solving, Time Management, Adaptability and Continuous Learning
-

CERTIFICATIONS

- Build Dynamic User Interfaces (UI) for Websites - COURSERA
- Start the UX Design Process: Empathize, Define, and Ideate - COURSERA
- Foundations of User Experience (UX) Design - COURSERA
- Conduct UX Research and Test Early Concepts - COURSERA
- Build Wireframes and Low-Fidelity Prototypes - COURSERA
- Design a User Experience for Social Good & Prepare for Jobs - COURSERA
- Create High-Fidelity Designs and Prototypes in Figma - COURSERA
- Certificate in Python for Beginners – University of Moratuwa (UOM)
